## Overview

Communicating in a foreign language? Nothing's simpler! With Speereo Voice Translator you will forget about linguistic and geographical barriers! That's exactly what Speereo Voice Translator can do for you!

Once you select the proper phrase from any of the 11 languages such as English, Spanish, German, French, Italian, Russian, Chinese, Korean, Portuguese, Turkish and Japanese and Speereo Voice Translator immediately reads back the same phrase in the other language.

About 4,000 most commonly used phrases, business, technical, medical, and legal terms, conversational phrases, idioms, and some slang are arranged in 16 main categories and 87 subcategories by subject, such as Travel, Useful, City, Buy Food, Shopping, Health and Entertainment. Always staying in touch with the world! Enjoy the best world travel guides on your smartphones!

Speereo Voice Translator has been enhanced by the Columbus Travel Guides on every country and many cities, which had been especially adapted for Speereo Voice Translator. Columbus Travel Guides is an invaluable source of comprehensive and detailed information for countries and cities worldwide. Now, wherever you go, with Speereo Voice Translator powered by Columbus Travel Guides you will have at hand all useful information on the place of your visit, including sights, hotels, restaurants etc. Moreover, you can get free updates of actual weather in any city included in the used guides as well as the nearest time weather forecasts (GPRS connection is needed).

## Application Installation and Registration

Speereo Voice Translator - for Symbian Series 60. The installation includes 2 languages (English, one other) or 11 languages (Multilanguage series) and one free guide.

During the trial period you can use a free guide browser and translate phrases from any to any of installed languages from 'Travel' section only. The trial period is 15 days. To use further, you need to register one or more languages.

Installation and registration of other languages:

You can download other languages (\*.sis files) on <http://www.speereoovt.com>. To use the language, you must register it. Get a registration code from Speereo Software, go into 'Setup', select the language and enter the registration code.

Installation and registration of guides:

There are two ways to install guides. You can download a guide as the installation sis-file on <http://www.speereoovt.com> by using any web-browser of the third party firms or download a guide from Speereo Voice Translator (use 'Guides->Guides on Web' from the menu). To register a guide, go to 'Guides' and select the guide. If the guide is unregistered yet, you will be asked to enter the registration code.

The full registration procedure requires the user's name and the registration key. You will be asked to enter a registration name at the first application run. If you forgot it, you can find it in 'About' screen.

## Application Use

Speereo Voice Translator includes 2 main parts – a phrase-book that enables to translate phrases from one language to another and a guide that is a source of information on the selected countries and cities. Switching from the phrase-book to the guide to be done in the Application's menu.

### Phrase-book

Phrases to translate are divided into several sections and topics for more convenient search. Each section is divided into subsections (topics). At the start application there will be opened a window with the available sections. Select one of the sections and open a list of phrases appropriate to this section and topic.

Select by using the phone joystick. Also use the phone joystick to navigate in the list of phrases.

- Press 'OK' button on the selected phrase, there will be opened a window with translation, the selected phrase translation sound will be played.
- 'Topics' - navigate in the selected section's topics.
- 'Context topics' - go to topics usually used to the selected phrase.
- 'Forward' and 'Backward' - navigate in the visited topics.
- 'Button 5' – switch between full screen and normal mode.

### Phrase-book Settings

'Settings' menu item enables to select the following Application's options.

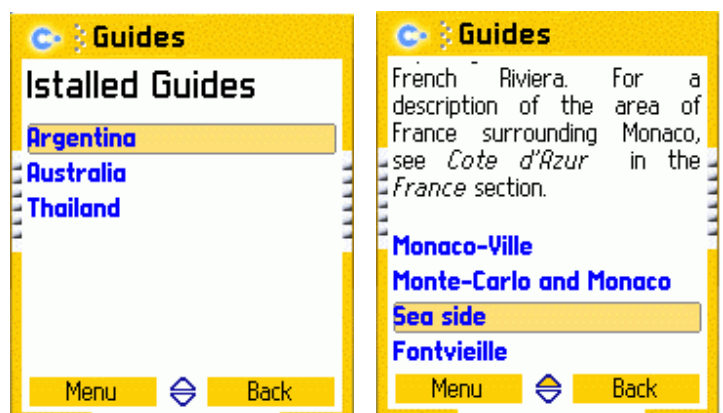

- 'From Language' - specify the language to translate from.
- 'To Language' - specify the language to translate into.
- 'Font size' - specify the type size for the phrases list.
- 'Font' - specify the font type.

In case the selected language is not registered yet, you will be asked to enter a registration code that can be taken on <http://www.speereovt.com/register>. You can delete the language file in 'Languages->Delete' to free memory. The registration information in that case is not lost. You can install that language later.

### Guides

'Guides' is the information on countries and cities divided by sections for more convenient use. At the start switch to 'Guides' mode, there will appear a screen with a list of guides installed on the phone. Select the required guide by the joystick and press 'OK' button. If the guide isn't free and not registered yet, you will be asked to enter a guide registration code. To navigate in the guide, use the joystick.

- 'OK' - open a section
- 'Joystick back' - navigate on a level up
- 'Button 5' – switch between full screen and normal mode.

### Worldwide weather forecast

Select a 'Weather' menu item to get the actual weather update for the corresponding city or country as well as weather forecast for the nearest time (GPRS connection is needed).

### Guides downloads from the Speereo's site

When in 'Guides', you can download the required country or city guides directly from the Application. Select 'Guides-> Guides on Web' to connect with the guides repository on <http://www.speereo.com>. (GPRS connection is needed). Thus, you may not keep all the necessary guides on your smartphone, you can download them when required. Some guides have to be registered. In this case, enter the registration key received on <http://www.speereo.com>. To delete the unneeded guide, use a 'Delete Guide' menu item.

### Online flight timetable and online flight status

You can request the unlimited flight timetable service during subscription period only. The flight status service is paid per each request. You can use search through city name or through flight number. In case direct flights are required please fill in the date interval using the both fields.

In case connected flights are required please fill in the first date field only - the departure field. The 'Via' field is for indicating a transit airport. It is not required field but you can fill in it if you wish.

In case your search through flight number, please fill in the flight number field only. The flight status service is available after your search when any flight have been already found (The status service is available for limited airlines). To obtain the flight status please click on 'Status' button, to update, please, click on 'Update' button.

## How to register

You can try to use trial version during 15 days after the installation. Only 'Travel' section is available for translation during the trial period.

If you want to use our products, you have to visit our web site <http://www.speereo.com/register>

Each Speereo Voice Translator has one free Travel Guide. If you want to download additional guides, you have to pay for it. Users of bi-lingual version can upgrade their version to multi-language version of Voice Translator. As a registered user of the multi-language Speereo Voice Translator, you can always download additional languages and updated versions for FREE (except GPRS connection charge). But you have to pay for new language for bi-lingual Voice Translator. Minimum subscription for flight timetable is 1 month.

Minimum package of flight status requests is 5 units. It is also possible to buy bundle package with discount: flight status and flight timetable.
